

APSC 221 - Engineering Economics: Assignment Cover Page: 2018-2019

Following professional engineering practice, I bear the burden of proof for original work. I have read the Policy on Academic Integrity posted on the Faculty of Engineering and Applied Science web site engineering.queensu.ca/policy/Honesty and confirm that this work is in accordance with the Policy.

My signature below attests that this submission is my original work.

Signature:  Date: Feb 25/19

Name: Tom Heyse StudentID #: 20 000838

Please note: THIS IS ENGINEERING – Attention to detail is important!

- 1) Work submitted without a scanned signed cover page will not be marked for assessment.
- 2) ONE electronic file per question per OnQ Assignment folder (Several individual question folders will open once you have uploaded your signed cover page).
- 3) TAs will be looking for your work in the folder associated with that one question. If you upload your work into the wrong folder, it will not be marked for assessment.
- 4) Illegible work will not be marked for assessment.
- 5) Work submitted beyond the announced due date and time will be assessed a late penalty of 10% per day.
- 6) No work will be accepted for marking after the solution has been posted.
- 7) Markers **WILL NOT** be recalculating subsequent answers that rely on previous parts of a question in order to award part marks. In the same way that a building will fall down if, the foundation is not correct, an entire economic solution will be invalid if it is based on an incorrect interest rate or if an incorrect time period is used, etc. ... make sure to double check each step of your work.
